

CNC MACHINING CENTRES II

TITAN

5-axis machining centre.

AXEL 4

4-axis machining centre.

AXEL 5

5-axis machining centre.

ARGO

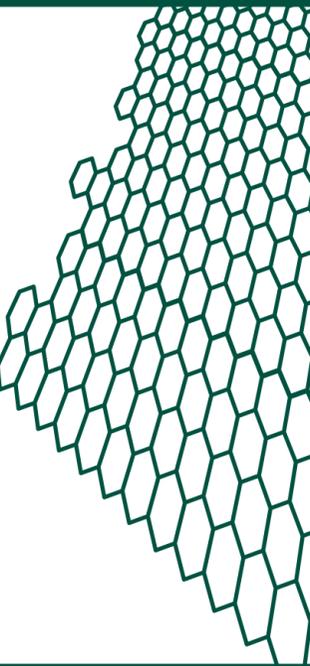

3-axis machining centre with 0°/90°/180° electrospindle pneumatic rotation.

SOFTWARE

CAD/CAM solutions operating in a Windows environment for the graphic designing of the machinings to be executed with the machining centres.

- 3D graphic representation in CAD environment of inserted bars and machinings
- guided introduction of the main machinings (hole, pocket, linear milling, cylindrical hole)
- parametric machinings management
- simplified management of machinings process sequence
- automatic calculation of optimal vice positioning
- profile and tool archive that can be extended and managed by user
- management of machinings prestored in archive (macro)

INDUSTRY 4.0

LOLA: is the cloud based platform created by Fom Industrie for Industry 4.0.

- LOLA** is compatible with PC and mobile devices and lets you check:
- machine status
 - machining statistics
 - key components status
 - predictive maintenance messages
