

DOUBLE HEAD SAWING MACHINES

ALVA 55 THETA

Double head sawing machine with frontal blades, controlled movement of the mobile head and electronic control of the head tilting.
Ø 550 mm tungsten carbide blades

ALVA 50

Double head sawing machine with frontal blades, controlled movement of the mobile head and electropneumatic control of the head tilting.
Ø 500 mm tungsten carbide blades

STEEL

Double head sawing machine with down-feed blades for steel profiles, with controlled movement of the mobile head. Pneumatically controlled rotation of the heads.
HSS Ø 350 m blades

ALVA 55

Double head sawing machine with frontal blades, controlled movement of the mobile head and pneumatic control of the head tilting.
Ø 550 mm tungsten carbide blades

MOXIE

Double head sawing machine with down-feed blades and manual tilting and rotation of the heads. Manual/controlled movement of the mobile head.
Ø 400 mm tungsten carbide blades

WORKING MACHINES

SOFTWARE

ProF2 Suite is the solution for all the requirements of the framing industry. It includes nine integrated products with which it is possible to manage design, calculate estimates, assembly processes, production control, CE labeling, create archives, calculate cutting lists and machining.

FSTCut4 is the innovative program managing all the operations that can be carried out by Fom sawing machines. Its simple, intuitive interface allows guided management of individual cuts as well as carrying out the cutting lists received from the office.

INDUSTRY 4.0

LOLA: is the cloud based platform created by Fom Industrie for Industry 4.0.

LOLA is compatible with PC and mobile devices and lets you check:

- machine status
- machining statistics
- key components status
- predictive maintenance messages

 = **LOLA** ready

The specifications and illustrations in this catalogue are only guideline. **FomIndustrie** therefore reserves the right to make any modifications it deems necessary for technical or commercial reasons at any time and without prior notification.
