

single head sawing machines

Cutting accuracy with efficiency and reliability.

Spring 55 Theta

Single head sawing machine with front blade feed

The head has a motorized tilt between 20° and 160° and is electronically controlled. Equipped with a 550 mm diameter blade.

Panda 550 Theta

Single head sawing machine with up-feed blade

The head has a motorized rotation between 20° and 160° and is electronically controlled. Equipped with a 550 mm diameter blade.

Panda 300 Echo

Single head sawing machine with up-feed blade

The head is manually positioned with rotation between 0° and 180°. Equipped with a 300 mm diameter blade.

Spring 55

Single head sawing machine with front blade feed

The head has an electro-pneumatic tilt between 20° and 160°, with intermediate angles controlled by mechanical stops. Equipped with a 550 mm diameter blade.

Panda 550

Single head sawing machine with up-feed blade

The head is positioned manually with rotation between 20° and 160°. Equipped with a 550 mm diameter blade.

Sika Plus

Single head sawing machine with down-feed blade

The head can be manually positioned with rotation between 0° and 180° and tilted between 45° and 135°. Equipped with a 400 mm diameter blade.

Spring 45

Single head sawing machine with front blade feed

The head has an electro-pneumatic tilt between 20° and 160°, with intermediate angles controlled by mechanical stops. Equipped with a 450 mm diameter blade.

Panda 400

Single head sawing machine with up-feed blade

The head is positioned manually with rotation between 0° and 180°. Equipped with a 400 mm diameter blade.

Kaiman 700 Theta

Single head sawing machine for compound cuts with up-feed blade

The head is electronically positioned with rotation between 20° and 160° and tilt up to 145°. Equipped with a 700 mm diameter blade.

awing machines

Mirage 600

Single head sawing machine for 90° cuts with up-feed blade

It has a controlled axis bar feeder. It can be equipped with blades from 400 mm to 600 mm. High productivity on a wide range of applications, including cutting solid profiles and profile bundles with an excellent finish thanks to the bar and blade spacer devices.

Mirage

Single head sawing machine for 90° cuts with up-feed blade

It has a pneumatic bar feeder. Equipped with a 400 mm diameter blade.
