Technical specifications

Spindle with two rotation speeds	6 000 - 11 800 rpm
Tool coupling	ER 20
Quick spindle locking for easier tool replacement	✓
Manual rotation and pneumatic locking of the worktable from 0 to 90°	✓
2 vertical vices	✓
2 horizontal vices	✓
2 copying jigs	✓
6 retractable stops	✓
Side support surfaces 1 200 mm (RH and/or LH)	✓
Possibility of machining with copying jigs or with mechanical stops	✓
2 independent pneumatic tracers with double diameter selector Ø 5 and Ø 10 mm	✓
Tool mist lubrication	✓
Minimum quantity lubrication with pure oil	○
Air filter unit	✓
Chip collection bin	✓
Additional retractable stop	○
Additional magnetic stop	○
Measurement unit change to inches	○
